

Architects & Planners

The Charles Vincent George Design Group, Inc. is a full service architectural and planning firm based in Naperville, Illinois. Founded in 1962, we have extensive experience throughout the Midwest. We work with individual commercial ventures as well as corporate, governmental and institutional clients as your single source "turnkey" project management option for all land planning, architectural, interior design, engineering and landscape design services.

We offer the complete package of design and engineering services from site selection and feasibility studies to post construction phase services. We support owners and developers in obtaining government approvals and working with the community. We will be your advocates, working through every phase of your project to facilitate completion.

We are committed to developing projects that make a difference to your business and the larger community. At Charles Vincent George Design Group, we design commercial and public facilities that work for the people who use them. Your project will have lasting value, enduring quality and timeless design integrity.

in the news . . .

FIRST NATIONAL BANK OF NAPERVILLE - The First National Bank of Naperville, an affiliate of the First National Bank of Brookfield, retained the Charles Vincent George Design Group to design a 17,000 sq. ft. banking facility in the heart of Naperville's business district in May of 2003. Featured are the completed photos of the newly finished facility.

"CVG cared about our bank project as if they were the owner. They made it their business to see that every detail was completed to my satisfaction. They were advocates for us with the contractors, with direct communications and seamless follow-through. We got everything we were paying for and then some."

Peggy Schultz, Director
