

## Architects & Planners

For Builders and Developers the decision with whom to partner with for architectural work is critical. The quality and creativity of your design leaves one of the only lasting and identifiable marks toward the quality and craftsmanship of your work.

**Charles Vincent George Design Group, Inc.** has a long history of providing creative solutions and high quality design work to Builders and Developers.

In addition to having a thorough understanding of the building and construction market, we understand the need to create a unique design product for your clientele. Whether providing basic permit drawings or detailed construction documents for bidding, we have a product to suit your needs.

*Creativity* We employ a talented staff of designers with a history of developing imaginative and unique ideas for you and your clientele.

*Accuracy* Our product has an unparalleled level of accuracy with the quality control procedures we have in place.

*Schedule* We understand the need for expediency and pride ourselves on our ability to meet your scheduling requirements.

*Partnering* We strive to create relationships which promote communication and understanding of both your budget requirements and your company's building philosophy. Our desire is to excel for our mutual benefit.

## Customize Your Interiors

Architecture does not stop on the exterior of a building. Continuity of design often becomes lost when the Architect is divorced from the building design after a design build construction drawing is complete. We pride ourselves on our ability to add style and ambiance to your interiors. From custom designed wine rooms, kitchens and millwork design, we can turn the ordinary into extraordinary with unique designs to suite your clients needs and budget allowances.

Mike Finder, Project Architect

Mike Finder joined the CVG Design Group in May, 2004 and brought with him considerable design and management skill. Most recently an Architect with Solomon Cordwell Buenz & Associates of Chicago, Mike has worked on a variety of commercial and residential projects all over the world. As a Project Architect and Designer with CVG, Mike has worked with our private residential clients creating unique custom homes. Mike holds a Masters Degree in Architecture from the University of Kansas-Lawrence, and studied abroad in Siena, Italy; Berlin, Germany; and Prague, Czech Republic. He currently resides in LaGrange with his family.

## Modern Design

Modern design can be an orchestra of complex simplicity. Textures, colors and forms are blended to create the unique. Although not for everyone, Modern design allows architecture to make the ultimate statement of individualism. Recently completed, this Gold Key Award Winner in Burr Ridge, Illinois and recently on the cover of *Design & Architecture* magazine silenced the critics of Modern design. Extraordinary views, uniquely designed spaces and the love of design, down to the finest details, make our latest visit to the edge, truly an experience to live in.
